

Lesson Plan

Topic: Writing Emails – PET Exam Part 1

Teacher:	Ed Rush	Date:	5 July, 2026
Class:	M2/M3	Duration:	46 minutes
CEFR Level:	B1	Lesson Shape:	Productive Skills (Shape F - Productive Skills (Writing))
Materials:	- PET Writing Email worksheet - Slideshow		
Slideshow URL:	https://elwrush.github.io/lesson-plan-writer/M2-M3-WRITING-EMAIL/index.html		

Lesson Aim

Main aim: By the end of the lesson, learners will have written a PET-style reply email using cohesive devices (As for, That way) to connect their ideas naturally.

Subsidiary aim: Learners will also have practised identifying key task requirements and evaluating model responses against cohesion criteria.

Lesson Stages

Time	Goal	Procedure	Int
STAGE 1: Lead-in			
5 min	To activate learners' interest in the PET email task and set the context	- Show the splash and title slides. Elicit: "What makes an email sound natural?" - Display the PET email task from Mrs Lake on the screen. - Elicit what the four notes mean: Great!, Explain, Suggest ..., Tell Mrs Lake. - Tell students: "Today you will learn how to make your email flow naturally – not just tick the boxes."	T-Ss
STAGE 2: Task Analysis			
8 min	To identify the key points required in the task and distinguish them from distractors	- Students open their worksheet to Task 1. - Slide: four must-do items appear as click-throughs (express enthusiasm, explain choice, suggest activities, tell about food). - Ask: "What do these four items have in common?" (they are the four notes from the email). - Slide: three distractors appear (ask about time, decorations, invite another teacher).	T-Ss

Time	Goal	Procedure	Int
		Ask: "Why are these not in the notes? How do you know?"	
STAGE 3: Model Analysis			
10 min		- Start a 3-minute timer. Students read the three responses in Worksheet Task 2 silently. - After the timer, slide transition shows response-by-response analysis. - Response A (robotic): Elicit that it covers all four notes but has no linking words – it feels like a list. - Response C (incomplete): Elicit that it is missing the "Explain" note and has vague activities – no development. - Response B (natural): Highlight four features: enthusiasm phrase ("I think that sounds brilliant!"), reasons given ("because we will have more room"), topic transition ("As for food"), result connector ("That way").	T-Ss, S
STAGE 4: Language Focus			
5 min	To notice how specific linking words create cohesion between ideas	- Auto-animate slide pair 1: Without / With "As for food". - Auto-animate slide pair 2: Without / With "That way". - Drill the phrases chorally: "As for food ...", "That way ..."	T-Ss
STAGE 5: Writing Task			
15 min	To write a PET-style email reply using cohesive devices	- Students turn to Worksheet Task 3. Read the email from Tom together. - Identify the three notes: tell Tom which place and why, suggest 2-3 sports, say yes/no to prizes and why. - Remind students to use "As for" or "That way" in their reply. - Start the 15-minute timer. Students write independently on their worksheet. - Teacher circulates and gives individual support.	S
STAGE 6: Self-Check and Wrap-up			
3 min	To reflect on the techniques used and consolidate learning	- Slide shows the self-check checklist: enthusiasm phrase, transition phrase, result connector, reasons given, all notes addressed, about 100 words. - Students tick the techniques they used in their email. - Ask two or three students: "Which technique did you try? How did it change your email?" - Close with the end slide.	S
